FEES AND CHARGES

Fees and Charges Details Pricing Policy – Goods and Services by Council

Goods and services shall be provided on a cost recovery basis or to comply with statutory legislation. Any new goods or services introduced by Council after adoption of Management Plan for that year will be charged for in accordance with this policy and as set specifically by resolution of Council.

The following schedule of fees and charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication. The Division 81 (DIV 81) classification indicates a Treasurers Determination that the item is not subject to GST. If any item changes its GST status, Council will review the price at that time.

The fees have been prepared on current legislation. Should the legislation change any of the listed fees then Council fees will be amended accordingly.
