

THE CODES SEPP: COMPLYING DEVELOPMENT CHECKLIST

This Checklist will assist council or accredited certifiers when assessing applications for Complying Development Certificates (CDCs) made under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 (the Codes SEPP).

The Checklist is accompanied by a Guide to the Complying Development Checklist that explains and adds details to a number of items in the Checklist. The Checklist must be read alongside the Guide.

Neither the Guide nor the Checklist replace the need for the council or accredited certifier to read and have a full understanding of the Codes SEPP.

Application of the Guide and Checklist

The Guide and Checklist include amendments to the Codes SEPP up to 13 October 2009. If further amendments are made to the Codes SEPP, applications for CDCs made under the SEPP must be assessed only against the requirements that are in force *when the application is lodged*. If the Codes SEPP is amended between application lodgement and determination, that amendment will not apply to the application.

Certifying authorities must establish if any further amendments to the Codes SEPP are current at the time an application is received.

To allow for cross referencing with the Codes SEPP, the relevant clauses of the Codes SEPP are included in brackets throughout the Checklist.
