MESSAGE FROM THE MAYOR AND GENERAL MANAGER

The General Manager and I are pleased to present
Lachlan Shire Council's Disability Inclusion Action Plan
for 2022-2025.

The Lachlan Shire Disability Inclusion Action Plan demonstrates a commitment to improving inclusion and access in our community.

This document aligns with Council's 10-year Community Strategic Plan and our Delivery Program, and outlines actions planned over the next four to 10 years.

Disability inclusion is achieved by working together with a shared commitment to improving the lives of people with disability, and our community more broadly.

People with disabilities and their carers have the same rights as everyone to choose their involvement in, and contribution to our community.

Lachlan Shire Council's vision is for an inclusive, respectful and diverse community where people of all abilities have the opportunity to live, learn, work and play as they choose and are able to actively participate in decisions that may impact on them.

The Council's Disability Inclusion Action Plan's vision aims to:

- promote positive attitudes and behaviours in the community

- provide better access to information, services and facilities
- provide a more liveable and accessible community
- enhance employment opportunities and;
- increase opportunities for people with disability to participate.

Council takes a whole of life approach, through our direct service provision of quality early childhood services, youth services, libraries, community halls and other vital infrastructure, through to aged and disability services.

There is no doubt that the past years have tested our resilience as we recover from the global pandemic, it has also provided an opportunity for thinking differently and to further incorporate inclusion in our rebuilding efforts.

We would like to extend Council's appreciation to everyone involved in the development of this Plan and look forward to working collaboratively to strive for an even more inclusive community in the coming years.

Councillor John Medcalf OAM

GENERAL MANAGER

ORGANISATIONAL VALUES, VISION & MISSION

Lachlan Shire Council has five values that drive our team and our behaviours.

Lachlan Shire Vision:

For the Lachlan Shire to be a resilient community providing economic and social growth, through evolving agricultural, business, and mineral activities.

Lachlan Shire Mission:

To engage the community, providing and delivering progressive services, which are accessible to all, whilst implementing a long-term strategic plan leading to the social and economic benefit of the community.

PLAN VALUES, VISION, PRINCIPLES AND COMMITMENT

Disability Inclusion Action Plan Vision

Lachlan Shire Council's vision is for an inclusive, respectful and diverse community where people of all abilities have the opportunity to live, learn, work and play as they choose and are able to actively participate in decisions that may impact on them. Council's Disability Inclusion Action Plan aims to promote positive attitudes and behaviours in the community, to provide better access to information, services and facilities, to provide a more liveable and accessible community, to enhance employment opportunities and to increase opportunities for people with disability to participate.

Guiding Principles

Lachlan Shire Council is committed to working towards creating a shire that provides equal opportunity for people with a disability to participate and enjoy what the shire has to offer.

Access and inclusion are seen as core business of council and, are integrated into the provision of information services, the development of built environments, employment opportunities, and promoting positive community attitudes towards people with a disability.

Overview of the Disability Inclusion Action Plan

The Plan sets out the strategies and actions that Council will deliver to enable people with disability to have greater access to Council information, services and facilities.

This Disability Inclusion Action Plan was developed through a community consultation and research process which included a review of Council documents and Government policy. The consultation process involved talking to regional and local service providers, to people with disability, and carers. A community survey was conducted and outcomes from the Micromex 2021 Community Research also informed the plan.

PLAN VALUES, VISION, PRINCIPLES AND COMMITMENT

Commitments to the Community

Our values align with the Plan and are demonstrated through our commitments made to the community and its residents to:

- To establish a safe, caring, and clean community environment
- To promote, provide and plan for the needs of people of all ages
- To have a positive influence on community attitudes, and
- To apply principle of access and equity with facilities and services to encourage and promote a strong sense of community
- To provide professional, friendly, and innovative service
- To maintain principles of democracy, public participation, and fairness in decision making.

LEGISLATIVE FRAMEWORK AND STRATEGIC LINKS

Under the Disability Inclusion Act (NSW) 2014, all NSW Councils are required to develop a Disability Inclusion Plan (DIAP) to demonstrate their commitment to improve access, employment, and facilities for people with a disability.

These plans will outline the measures put into place to break down barriers and promote access to services, information, and employment whilst promoting the rights of people with a disability.

Four priority areas have been identified by people with a disability, these areas will guide strategies and actions of the DIAP:

- 1) Developing positive community attitudes towards disability
- 2) Creating liveable communities
- 3) Increasing access to meaningful employment
- 4) Improving access to mainstream services through improves systems and processes

There are several regulations and frameworks that guide disability inclusion planning and ensure the rights of people with disability are exercised and possible barriers are removed.

The Lachlan Shire Disability Inclusion Action Plan relates to international, national, and state legislation, as outlined in the diagram below.

COMMUNITY PROFILE

The Lachlan Shire is made up of 6,089 residents living across the towns of Condobolin, Lake Cargelligo and Tottenham, and the villages of Albert, Burcher, Tullibigeal, Fifield, Derriwong and Murrin Bridge.

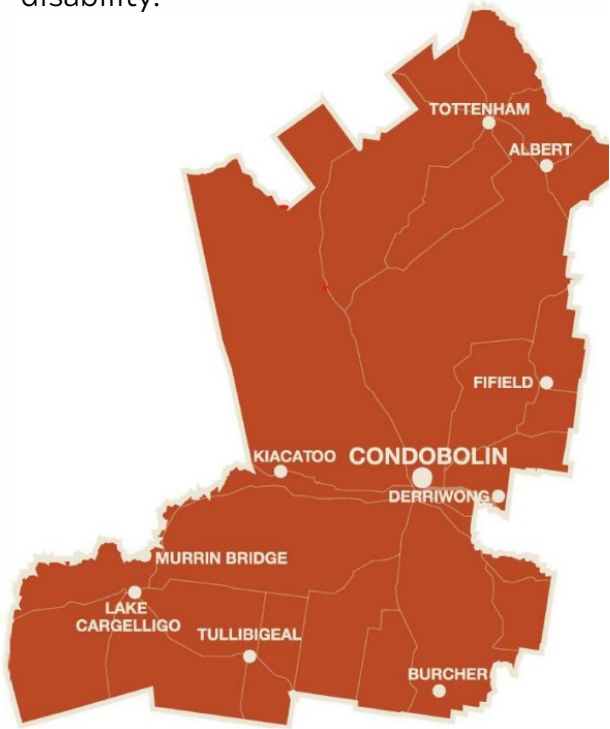

Lachlan Shire Council's main industry is agriculture. It is one of the state's largest grain-producing areas and also has strong sheep, wool, and beef industries.

Tourism is an emerging industry as well as the establishment of intensive industries and renewable energy.

Lachlan Shire has a high percentage of older residents with 20.6% of residents being 65 years plus; considering that the prevalence of disability increases with age, this is an important statistic that is reflected upon in community planning.

According to the 2016 Census, there were 543 of the 4,846 people over the age of 15 providing unpaid care to a person with a disability. This equates to 11% of our population and sits around the national average.

5% of the residents in the Shire identified as requiring assistance with self-care, mobility, and communication because of disability.

COMMUNITY PROFILE

The Disability Inclusion Act 2014 defines disability as:

'The long term physical, mental, intellectual or sensory impairment which in interaction with various barriers may hinder the full and effective participation in society on an equal basis with others.'

In 2018, the Disability, Ageing and Carers Australia survey found that:

MONITORING, REVIEWING & REPORTING

Executive Level Sponsor

Director Corporate and Community Services

Disability Inclusion Action Project Leader

Coordinator Home and Community Care

Working Party

A multi-disciplinary internal working group was formed to provide representation from operational and service areas of Council.

A skills mix across community consultation, strategic and operational planning, measurement, communications, and organisational development was utilised.

Peer Review

This document was peer reviewed by the Manager, Disability Inclusion Strategy, Policy and Commissioning, Department of Communities and Justice and relevant feedback incorporated.

Monitoring, Reviewing and Reporting

Resources such as council staff, volunteers, training providers, community stakeholders, websites and venues will be used to achieve these outcomes.

Progress of the DIAP actions will be reviewed regularly to reflect achievements, opportunities and challenges.

Reporting on the Plan will take place through the Lachlan Shire Council Annual Report which is made publically available via an online and paper version.

Annual reporting on outcomes of the plan will be provided to the Minister for Families, Communities and Disability Services as required.

This plan will be reviewed and amended accordingly in 2025.

The draft plan was endorsed at Council's May 2022 meeting and placed on public exhibition for 28 days.

APPENDICES

Community Consultation Summary

Community engagement and feedback were provided by people living with a disability, their families and carers as well as staff working in the disability sector.

This consisted of a community survey advertised on Council's website and Facebook page as well as informal consultation carried out with: staff, disability, and broader service providers and individuals with disabilities in the community. These consultations were held in conjunction with community engagement efforts for Council's Community Strategic Plan. Community consultations were undertaken across the shire in the towns of Condobolin, Lake Cargelligo, Tottenham, and Tullibigeal.

The four key themes that were used to focus the community engagement were: developing positive community attitudes and behaviours, creating liveable communities, supporting access to employment, and the establishment of accessible systems and processes.

In 2021, Micromex carried out research surveying community members within our community. 11% of respondents identified as having a disability.

When asked how strongly they agreed or disagreed with the statement

"Council's services and programs are accessible and easy to use for everyone, including those with a disability"

Responses varied with 31% agreeing, 33% neither agreed nor disagreed and 7% strongly disagreed.

'Lachlan Shire Community Strategic Plan - Have Your Say' survey identified roads and footpaths were the greatest barrier experienced across the shire, followed by a lack of opportunities to engage in the community through events or activities, and accessibility of buildings and shops.

FEEDBACK

What we talked about:

- What is your experience of disability in the Lachlan Shire
- What do you find are barriers to inclusion
- What strategies do you have to address these barriers
- The disability friendliness of Lachlan Shire council facilities

What you told us was important:

- Ensuring accessible paths, road, and footpath ramps between services and facilities;
- Access to existing council building such as community halls;
- Improving access to health services;
- Opportunities for people with a disability to engage in community events, activities, and sporting facilities;
- Increasing opportunities for people with a disability to participate in meaningful work, education, and training;
- Access to support through employment, health, and disability services.
